

Features

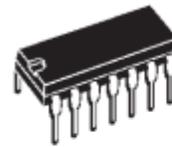

- Low turn off time
- Maximum operating frequency greater than 500KHz
- Timing from microseconds to hours
- Operates in both astable and monostable modes
- High output current can source or sink 200mA
- Adjustable duty cycle
- TTL compatible
- Temperature stability of 0.005% per°C

Description

The DL6709 dual monolithic timing circuit is a highly stable controller capable of producing accurate time delays or oscillation. In the time delay mode of operation, the time is precisely controlled by one external resistor and capacitor. For a stable operation as an oscillator, the free running frequency and the duty cycle are both accurately controlled with two external resistors and one capacitor. The circuit may be triggered and reset on falling waveforms, and the output structure can source or sink up to 200mA.

- Notes: 1. Supply current when output is high is typically 1mA less.
2. Tested at Vcc = + 5V and Vcc = + 15V.
3. This will determine the maximum value of R_A + R_B for + 15V operation the max total is R = 20MΩ and for 5V operation the max total R = 3.5MΩ .
4. Specified with trigger input high, VDD=5V

- Notes: 1. No protection against excessive Pin 7 current is necessary, providing the package dissipation rating will not be exceeded.
2. Time measured from a positive going input pulse from 0 to 0.8x Vcc into the threshold to the drop from high to low of the output trigger is tied to threshold.

$$t_1 = 0.693 R_A \cdot C$$

$$t_2 = [(R_A R_B) / (R_A + R_B)] C \ln \left(\frac{R_B - 2R_A}{2R_B - R_A} \right)$$

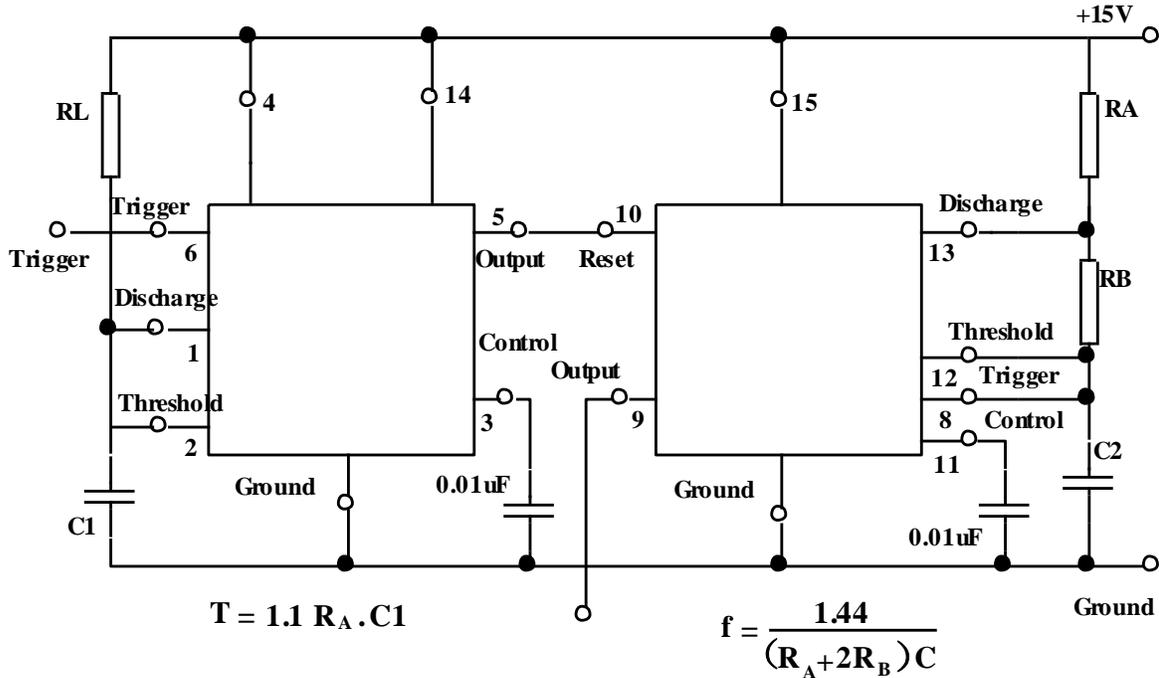

$$f = \frac{1}{t_1 + t_2} R_B < \frac{1}{2} R_A \text{ ti}$$

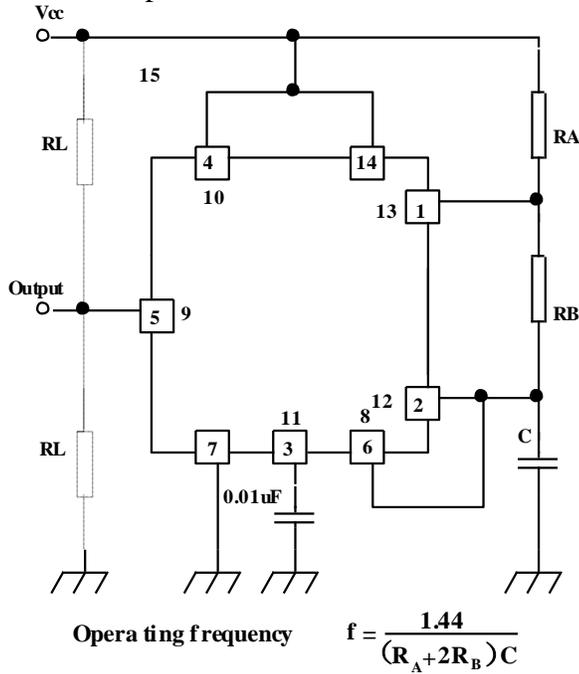

Tone Burst Generator

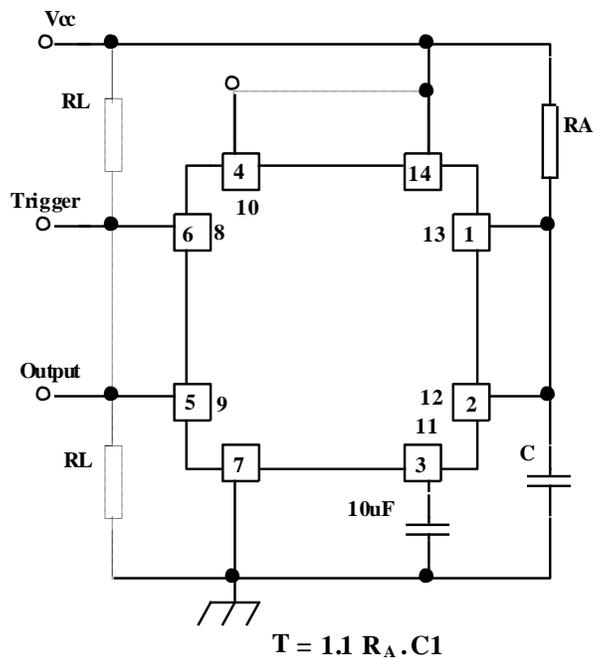

For a tone burst generator the first timer is used as a monostable and determines the tone duration when triggered by a positive pulse at pin 6. The second timer is enabled by the high output of the monostable. It is connected as an astable and determines the frequency of the tone.

Astable Operation

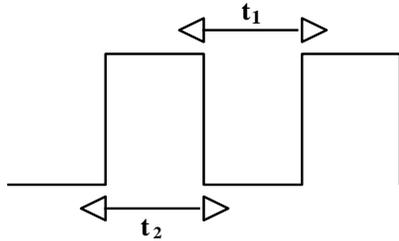

Monostable Operation

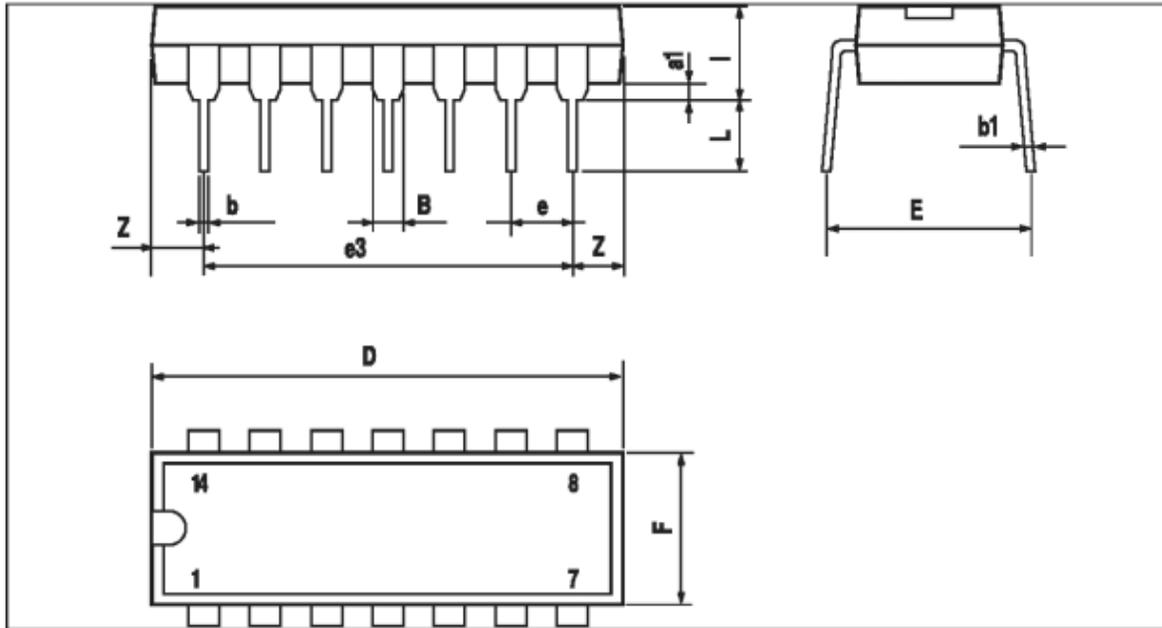

$$t_1 = 0.693 (R_A + R_B) C \text{ Output High}$$

$$t_1 = 0.693 R_B C \text{ Output High}$$
